# LANG MURSTEN

There are custom design projects that require a brick out of the ordinary. A material to deliver a unique and elevated aesthetic, while maintaining the raw, authentic beauty of the clay, honed through environmentally sound and sustainable practices.

The Lang Mursten selection of exquisitely crafted, long format Danish bricks represents the perfect fusion of cutting-edge design and practical functionality. These soft-moulded, tastefully proportioned bricks are well suited to those seeking a truly extraordinary product to support the integrity and aesthetic of a luxury build.

Designing with the Lang Mursten product:

A brick is nothing without vision. Lang Mursten is all about realising visions. We don't think of our products as bricks. We think of them as pieces of art – playing a part in a bigger picture.

The Lang Mursten format is the most exclusive series of bricks we've ever produced. The series contains unique water-struck bricks with many details and an exciting interplay of colours.

All the bricks in the series have undergone an extensive production process in order to achieve their final expression. Their unique surface structure produces a striking, dynamic façade, rich in variation.

## ORDINARY GEHL

The unrefined, matte finish of this product is both understated and unapologetic. Tonal variations of warm charcoal complement the finish, giving it a sophisticated and urban result.

GEHL

PROJECT | MOSEV+ÜNGET

## ORDINARY LUND

This blended colour palette scales tones of earthy, dark hues with a natural spattering of sand to create a subtle, rustic finish.

LUND

PROJECT | HAMMERSHOE

## ORDINARY LARSON

The natural displacement of light grey neutral tones affords interest without intentional accent and works in partnership with the roughened neutral hues. Organic, unrefined texture creates a contemporary, natural finish.

LARSON

## ORDINARY UTZON

The warmer pale shades of gritty clay neutrals are organically interspersed with cooler counterparts. The variations in colour are coupled with unique texture to showcase individuality for a timeless look.

## The Story of Origin and History:

A lasting tradition of craftsmanship, dating back almost 10,000 years, the clay brick has represented a staple building material throughout ancient civilisation and into modern day industry. Emerging as a favoured material in Europe in the late 13th century, following a shortage of natural stone, the craft continued to be refined and modernised to reach its most current iteration.

Exclusively sourced from renowned Danish brick makers, Randers Tegl, the Lang Mursten range benefits from over 100 years of clay brick-making excellence and craftsmanship. A family run business, now operating as the largest brick supplier across Scandinavia and Germany, Randers Tegl prides itself on modern technical superiority and an intense curiosity to craft bricks suited to creative innovation projects.

## Danish Quality:

Globally renowned for producing and distributing premium goods, driven by quality

and excellence, Denmark's design and construction industries in particular have benefited from a rich cultural heritage of high-quality production materials. Made exclusively available in Australia by PGH Bricks and Pavers, the Danish origins of the Lang Mursten brick solidify the superior quality and integrity of the product.

## The Lang Mursten Range:

The Lang Mursten range has been described as the reimagination of an ancient yet modern material: well-appointed to service designs that integrate sensitivity to historic relevance and masonry characteristics, with a considered, contemporary aesthetic.

This longer and thinner style works to emphasise the horizontal and linear aspects of a build, creating a textured façade and unique aesthetic at the intersection of art and style.

Presenting a perfectly imperfect, hand-crafted aesthetic, achieved through the moulding process, each Lang Mursten brick carries its own slight variances, such that the unique, crafted qualities are visible in the detail of each individual brick.
