Colour your home with Dramatic Reds

Our colour experts and professionals have done the hard work and created three stunning and timeless schemes within Dramatic Reds that will ultimately make your choice easier. The featured schemes provide a starting point to help you on your way. Each one is made up of **60%** brick, **30%** roof tile and **10%** trim, such as gutters, fascia, doors and window frames. This breakdown represents the proportions of your house that will be taken up by these elements.

You may select a scheme straight away that is exactly what you are after, or you may wish to take a scheme as a base and then try our suggested alternates as part of it. Use the blank schemes to the left to note your preferred choices.

Roof Tile 30%

Gutter Fascia 10%

Brick 60%
