DRY PRESSED

These Linear bricks combine the best of the PGH™ Dry Pressed collection with slender and elegant proportions to create distinct residential and commercial designs. Used as a feature or to amplify street appeal, these slimline 290mm bricks are Australian-made and fired in boutique batch kilns for crisp colours, sharp edges and a premium finish.

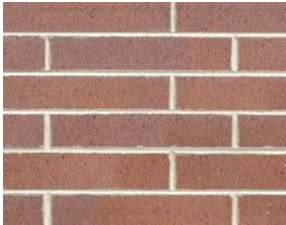

Their modular format allows for standard installation methods and joint returns to minimise brick cuts and any increased costs.

WOLVERTON CREAM
