Bricks of harmonious tranquillity

Our homes should be the place where we feel calm and at peace, inducing feelings of serenity and reassurance.

Nothing says “home” more than the universal building material of bricks. Whether used as a striking statement, a classic connection to a heritage look or as a contemporary, sleek and modern design. But what about for a calming and tranquil home design?

Zen by Nature is a new premium range of softly muted-toned bricks that draws inspiration from nature to create an organic yet modern look. Each brick, with its own carefully curated and peaceful shade, delivers a rawer feel to the surface texture and is finished with a hint of fine white sand to soften the appearance and reflect light.

Aligning to a more Zen-inspired take on the Back to Nature trend, our new brick range blends well with more elemental design cues such as wood and stone and light and neutral surfaces. Ultimately, this brings out the inherent, natural beauty of the brick without appearing overdressed.

SALT

A raw, cool white with an intentional, uneven colouring to enhance movement and a play on light.

GINSENG

The most neutral colour of the range, this organic, grounded tone is the perfect background palette for a Zen-inspired base shade.

GREEN TEA

A slightly-warmed earthy green/grey tone, which works particularly well with the warmth and texture of wood, pebble or stone features.

AGAVE

A muted grey/green that takes cues from cool-toned garden greenery, making it fresh yet soft and supple.

MUD BATH

Taking inspiration from cool earthiness, this shade will ground a Zen-inspired design, while its raw texture makes it balanced and neutral.

ZEN BY NATURE DELIVERS A FRESH,
TEXTURED, ZEN-INSPIRED BRICK PALETTE,
SYMBOLIC OF NATURAL BEAUTY.

A BRICK THAT PORTRAYS AESTHETIC SOFTNESS

Who knew a hard-surfaced brick could contribute to creating a home infused with softness? Our bricks mix a light, muted tonality with a slightly sanded texture to create a softer appearance than other bricks.

A CALMING COLOUR PALETTE

Our colour palette ranges from white and elemental neutrals to cooling green and grey botanicals and earthy, grounded organics. These five harmonious tones induce a sense of serenity and calmness.

THE TOUCH AND FEEL OF NATURE

Nothing embraces a harmonious connection with nature than a natural, textured surface. To that end, our bricks have a fine, light sand grain infused into a raw, slightly irregular surface.

A PLAY ON NATURAL LIGHT

Those fine grains of sand on the brick's surface contribute to a unique play on light from sunlight across different times of the day. This adds to the natural beauty and notion of serenity.

CREATE

A MORE ZEN-INSPIRED HOME

Living at the high pace of today's daily grind can take its toll. So, it's no surprise that there is a movement towards creating more tranquil and calming interiors in our homes. A back-to-nature style is a minimalist philosophy, making use of natural materials, light and space.

Key components of this style are warm woods, clean lines and muted earthy tones from raw materials such as brick or stone.

Ginseng Zen by Nature

"A zen-inspired home is all about tonality and texture. Utilise a harmonious colour palette and create interest with contrasting textures. Make natural materials a focus while including elements such as lush foliage to bring your zen-inspired home to life."

- Bree Leech, Interior Designer

THINGS TO CONSIDER

- Flow is important, think open and unrestricted spaces where rooms seemingly dissolve into each other.
- Tonal palettes are always soothing. Add some greenery whilst borrowing a few earthy tones to bring a gentle warmth to your neutral brick wall backdrop.
- Bring the outdoors in and create visual therapy with the aid of floor to ceiling glass which highlights some greenery or a beautiful feature tree.
- Consider a water feature not just for the aesthetic but for the sensory sensation the sound of trickling water creates.
- Have less and love more. Minimalism itself is a concept that creates a sense of calmness.
