PGH BRICKS & PAVERS™

PGH Bricks & Pavers™ is one of Australia's largest clay brick manufacturers. It offers a broad range of bricks and pavers for residential, architectural and commercial applications on Australia's East coast.

PGH Bricks & Pavers™ is committed to service excellence and has manufacturing capabilities in South Australia, Victoria, New South Wales and Queensland.

PGH Bricks & Pavers™ has a long history and deep expertise in brickmaking excellence. The name first came into existence in 1958 when the building companies established by Maxwell Porter and David Galbraith (incorporated in 1899 and 1949 respectively) merged with Hanson Consolidated industries.

PGH Bricks & Pavers™ was then part acquired by CSR in 1989, marking CSR's first foray into the brick industry. In May 2015, CSR and Boral formed a joint venture, Boral CSR Bricks Pty Ltd, which combined their brick operations along the east coast of

Australia. This partnership brought together the best of Boral and CSR's brick offering under the one brand of PGH Bricks & Pavers™. In November 2016, CSR acquired Boral's interest in the joint venture. PGH Bricks & Pavers™ is now wholly owned by CSR.

CSR is one of Australia's oldest manufacturing companies, forming originally in 1855. Today it is a leading building products company in Australia and New Zealand with revenues over \$2.0 billion, and with around 3,000 employees, it is the name behind some of the market's most trusted and recognised building materials brand names.

Good design and timeless style start from the outside.

Durable, strong, and timeless in style, bricks are a superior and progressive material available in a myriad of colours, shapes, textures and sizes.

They also bridge the boundary between outdoor and indoor spaces, providing a stylish and seamless flow from the living room to your back garden.

The 2019 PGH Bricks Style Guide presents nine exterior and interior palettes, providing you with everything you need to start your build journey with confidence.

ENDLESS STYLE FROM THE OUTSIDE IN

While bricks are a fundamental design element of a building's exterior, bringing them inside strengthens the connection between indoor and outdoor spaces, enlivening your home with texture, colour and interest

Brick Facings provide endless design flexibility to get the timeless beauty of brick integrated into any internal space. Often used on internal walls, splash-backs and feature walls, brick facings truly enhance the interior of your home.

We invite you to explore the PGH Style Guide and take inspiration from nine new curated palettes, giving you the confidence to create a home that you will love forever.

BE INSPIRED

BE SURE | BE YOU

Whether you are building or reinventing your dream home, the process can be a memorable and life-changing experience. With important decisions to be made on every detail, from small space solutions to big-ticket purchases, building can feel overwhelming and stressful. Whilst choosing the perfect bathroom tiles may seem top priority, beginning the building process from the outside-in helps simplify and inform other decisions.

Durable, strong, and timeless in style, bricks are not only a superior and progressive material, but a versatile design tool available in a myriad of colours, shapes, textures and sizes. More desirable than ever, they allow endless customisation opportunities for

contemporary Australian homes and building design alike. Choosing your bricks before the benchtops simply makes sense. Surface materials, tapware and fittings, after all, are easy to swap out. Bricks remain forever.

Begin your journey with two important questions – what is my style, and how do I want to live and feel in my space? After all, homes are about the people who live in them, not just the materials they are made of.

The 2019 PGH Bricks Style Guide is designed to help you identify your style and achieve a bespoke home without the stress of too many choices.

WHY CHOOSE BRICKS?

SOLID INVESTMENT

Building with bricks equals fewer upfront costs and virtually no ongoing maintenance costs, as well as energy bill savings. When it's time to sell, brick rates well because it's trusted over newer cladding materials that haven't stood the test of time.

ENERGY EFFICIENT

Brick insulates in a way most materials do not. By following good design principles and combining bricks with insulation, your home will keep warm in winter and cool in summer, so you'll love coming home.

CREATIVE COLOUR & CHOICE

With our diverse range of sizes, shapes and textures, and over 180 colours, we have a brick to meet your needs. With smart design, blending of brick types and diverse bricklaying techniques, the options with bricks are truly endless.

STRONG & SAFE

Bricks are permanent. They're weather and age proof. Bricks don't get tired like other man made materials. They won't twist or warp, rot or decay, erode or dent. They are resistant to the extremes of the Australian climate and being non-combustible, they don't assist the spread of fire.

LOW MAINTENANCE

Bricks require virtually no upkeep or repairs, avoiding ongoing costs. Unlike other products, the colour is baked into the product so it lasts for a lifetime. Remember, render will need to be repainted over time, an important fact to consider when looking at the 'whole-of-life' cost of your home.

SOUND REDUCTION

The density of brick makes for a quiet home, with dramatically reduced external sound, such as aircraft, road traffic and noisy neighbours. Brick can also reduce noise transfer within the home when used on internal walls.

1 Style of your house

The material that your house is built from also forms the foundation (literally) of its aesthetic appeal. The colour, shape, size and texture of the bricks you choose will influence the overall look and feel of your house. Before you make your final decision, it's worth gathering ideas from the internet, display homes, selection centres and magazines. When renovating, consider how new bricks will appear alongside existing materials.

Many homeowners find it helpful to pull together a mood board of images in the styles of homes they are drawn to. Simply save images (either physically or digitally) of your favourite buildings, bricks, trims and even interior ideas. As your mood board develops, it will often become apparent which style of home best suits your aesthetic and lifestyle.

Different aesthetic to your partner? Try having both of you complete the PGH Bricks Style Quiz to get a better understanding of your individual preferences, to find common ground and choose a style that you are both happy with.

TAKE OUR QUIZ & DISCOVER YOUR STYLE
PGHBRICKS.COM.AU/STYLEQUIZ

2 Consider your location

Bricks are graded to suit different environmental conditions. The location of your home will determine which grade you need. If you live near the coast or have high-saline soil, you may benefit from exposure grade bricks (EXP)*, which have heightened resistance to salt attack.

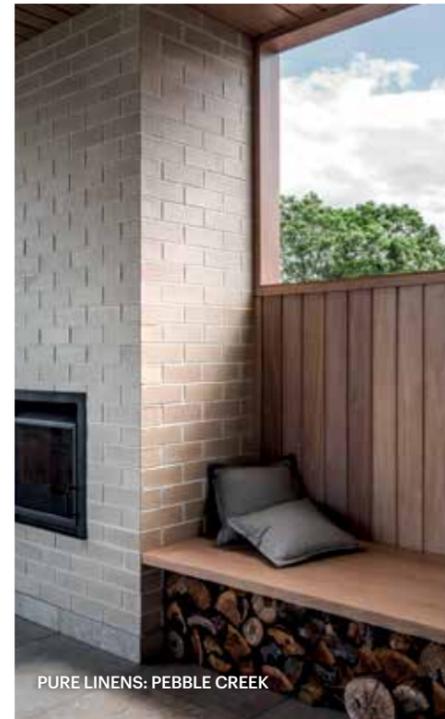

General purpose (GP) grade bricks are suited to all other building types and locations. Talk to your builder about any special environmental conditions you should be aware of.

*EXP BRICKS ARE IDEAL FOR HOMES LOCATED UP TO ONE KILOMETRE FROM A SURF COAST OR 100 METRES FROM A NON-SURF COAST.

OUR TOP TIPS FOR CHOOSING YOUR BRICK

Australians have always had a love for bricks. Beautiful and strong, they remain a popular choice for new homebuilders and renovators.

However, with such a broad range of great options available, choosing bricks may seem overwhelming when making your final selection. Here are our top tips to guide you to confidently select the right brick for your home.

3 How does it look

COLOUR & TEXTURE

Textural elements can add character, charm and individuality to a home. Brick textures range from a smooth finish, which has a consistent surface and ceramic-like appearance with straight edges, to a more artisan-style of effect, with a dragged or ripped appearance for a weathered look.

Try recycled look bricks from the Manhattan range for an authentic raw aesthetic or, if you are interested in a contemporary style, explore the metallic finishes available. To get an indicative feel for the look of your selection, visit iDesign by CSR to visualise your dream home online or a selection centre to see your finishes in real life.

SIZE

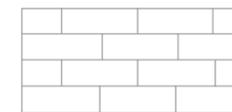

Bricks are available in a range of dimensions, including standard sizes, split, double height, linear and super linear. Choosing the right size for your project may depend on different factors, such as the proportions of the house, the style of your exterior and the purpose of the bricks

4 How does it stack up

A bond pattern is the style in which the bricks are layered. The most common bond is the stretcher bond, which consists of full bricks offset by half a brick from one row to another.

Stacked and Flemish bonds are also popular and achieve an alternative look, or get creative with hit-and-miss brickwork (especially popular for screening), which allows natural light to shine through.

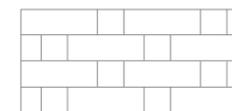

STRETCHER BOND

STACKED BOND

FLEMISH BOND

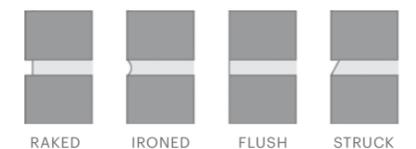

5 What holds it together

MORTAR COLOURS

Mortar is the material that binds bricks together and it can have a striking impact on the look of your facade. For example, an off-white mortar between darker coloured bricks will add contrast and highlight the shape of each brick, making the bricks the hero. However, matching the colour of the mortar with that of the brick will soften the brickwork and present a unified appearance. This is especially common with the use of lighter shades of bricks. Common mortar colours include natural or grey; white or off white; cream or buff.

MORTAR JOINT FINISH

With the mortar joint, you can choose round ironed, flush, raked or struck finish, depending on whether you want to highlight or soften the brickwork. For instance, create contrast and shadowing with a raked joint or minimise shadowing with a flush joint.

HOW WE CAN HELP

We know that building and renovating can be a confusing and stressful experience. We want to ensure your experience is an enjoyable one, so we've provided a range of tools to help you along the journey.

iDESIGN BY CSR

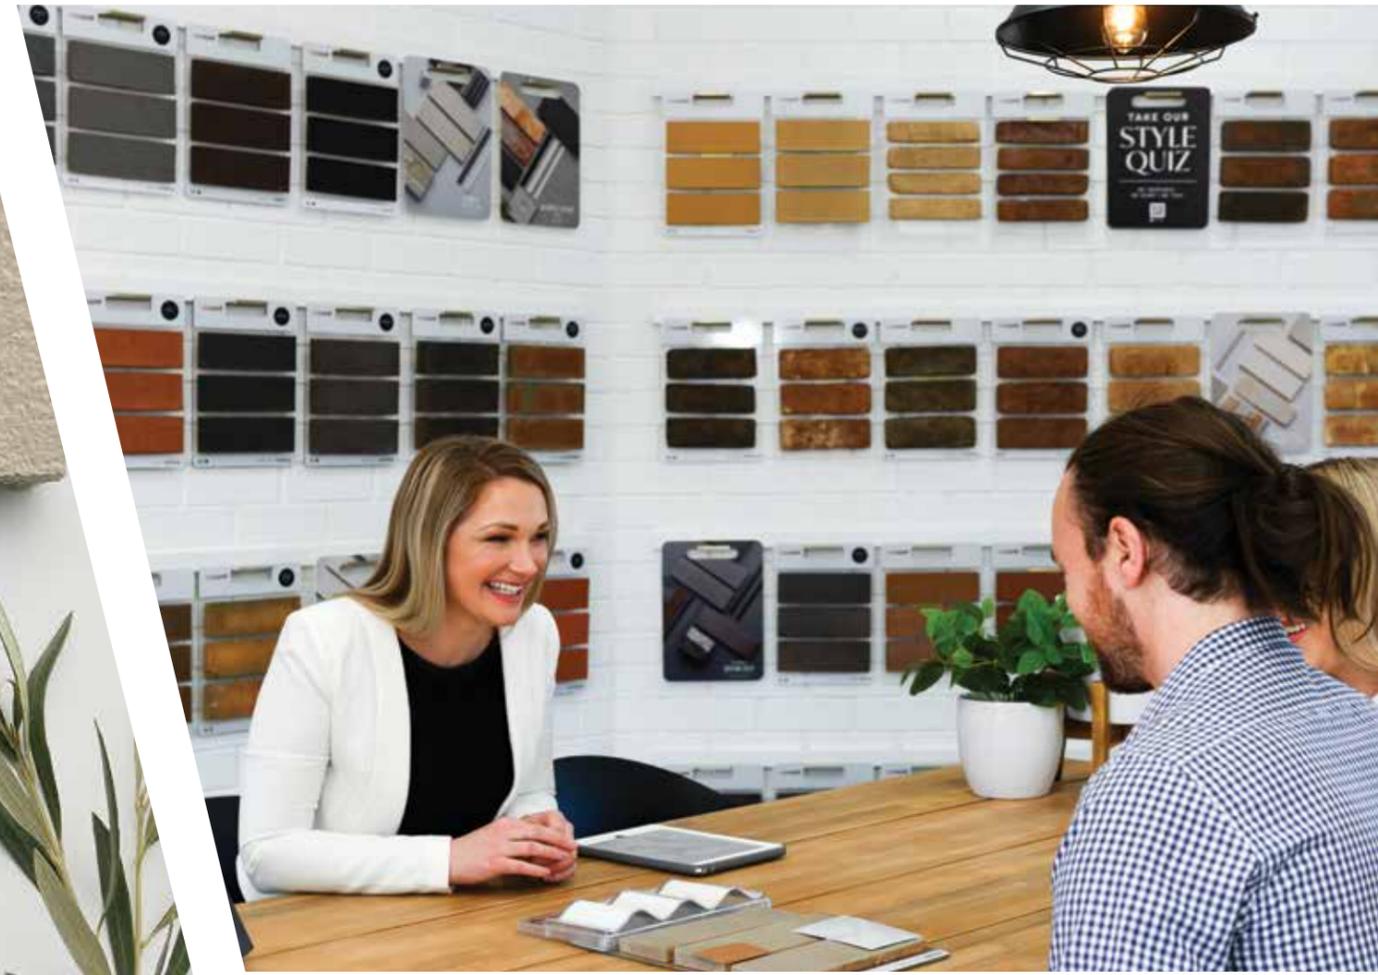

DREAM IT. DESIGN IT. BUILD IT.

Visualise your dream home online with iDesign by CSR. iDesign enables you to mix and match PGH Bricks with Monier roof tiles, fascia, gutter trims and even garage door colours to help you visualise the exterior of your home.

Using the latest 3D technology, you can apply all nine new material colour palettes with pre uploaded on-trend home designs or upload your own. It's a great place to start and is designed to make your building journey an easy and enjoyable experience, and to help you feel confident in the selection you make.

FIND YOUR STYLE PGH.IDESIGN.COM.AU

VISIT ONE OF OUR PGH™ SELECTION CENTRES

Our PGH™ Selection Centres are a perfect place to experience the look and feel of our products and seek expert advice in helping you choose your facade selection.

Make an appointment to see one of our Colour Consultants who will be able to assist you through your brick selection process.

Given your facade is likely to be made up of 60% bricks, 30% roof and 10% gutter, we want to ensure you achieve the look you're after.

We even have specially designed selection tools to make the selection of your whole exterior scheme easier.

There is nothing like seeing colours and textures in real life. We have an array of bricks and pavers on display in our centres. When you've decided on your preferred brick, don't forget to ask for a sample to take home.

DRY PRESSED ARCHITECTURAL

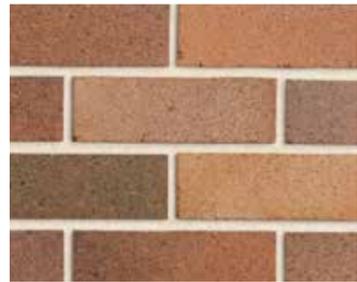

Our Dry Pressed Architectural bricks represent PGH's highest pinnacle of luxury and style in Australian-made clay brick products.

Exquisitely produced at state-of-the-art brick-making facilities using a time-honoured dry pressed method, this range presents with exceptional consistency of strength, dimensional accuracy and colour all the way through the brick. Produced under high compression, dry clay is pressed into individual moulds, which creates a magnificent, solid colour-through brick with sharp, clean and accurate edges.

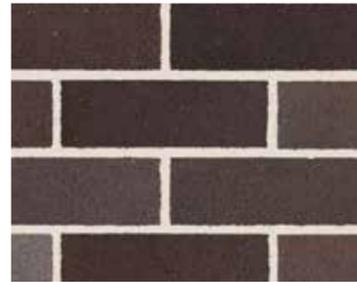

Highly sought after and specified by architects, developers, quality builders and discerning home owners, the PGH™ Dry Pressed Architectural range is the choice for superior showpieces and builds in residential and commercial applications.

Morada

At the forefront of contemporary design, the clean lines, divine colours and ultra-smooth textures of our Morada brick range set a new benchmark for building luxury.

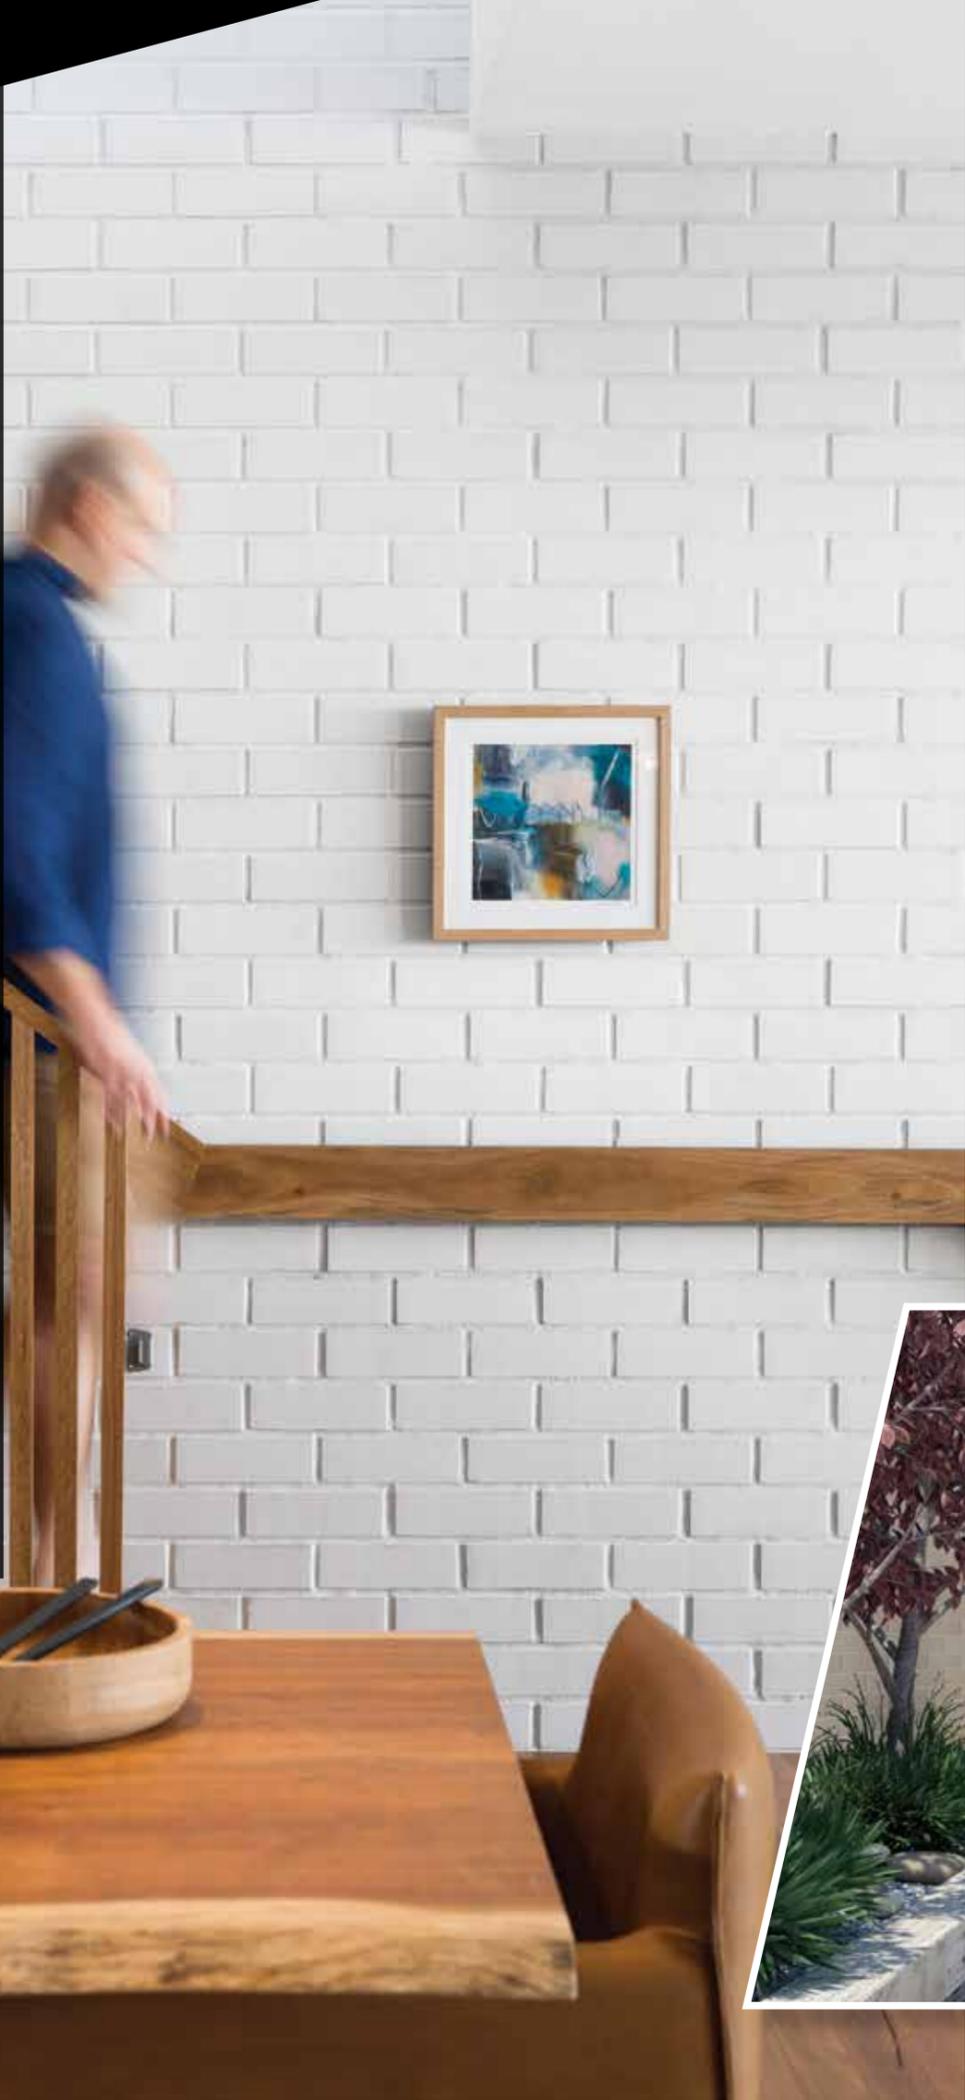

Made in Spain from ultra-fine clay, we've now introduced five new colours to the Morada colour palette, to increase the design versatility of this stunning range even further.

Building on our existing and already flexible Morada colour palette, these colour-through bricks are now available in five unique new shades; Ares, Rojo, Cacao, Nero Satin and Nero Gloss.

Use as a stand-alone material in any luxury modern build to evoke strength, simplicity and style or alternatively, pair with other materials to create trendsetting contrasts in colour, texture and design.

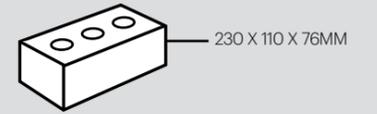

The Morada Range is available in three different sizes; Standard, Splits, and the long, sleek design of Linear.

All colours are also available as a brick facing, giving you the design flexibility to get the timeless beauty of brick into any internal space. Sizes vary by colour.

INDUSTRIAL CHIC BRICKS

The Industrial Chic movement has fuelled the inspiration behind the creation of our bespoke, locally made Manhattan range of recycled-look and feel bricks.

The urban and raw Manhattan range is signified by bricks that have been purpose-made to take on the weathered and tumbled imperfections of intended knots, scratches and nicks and colour blending designed to bring to life an edgy, exposed brick wall look and feel.

But unlike many recycled brick products, the Manhattan range has been produced with today's modern technological advancements behind the crafted manufacturing process, ensuring these bricks deliver consistent strength, durability and longevity as well as the benefits of Exposure Grading that actual recycled bricks may not have.

MANHATTAN: TRIBECA

"The highly sought after Industrial Chic look and feel can be achieved with the cleverly crafted Manhattan Collection of recycled-look bricks."

PURE LINENS

BRICKS OF COUNTRY-CRAFTED SOPHISTICATION

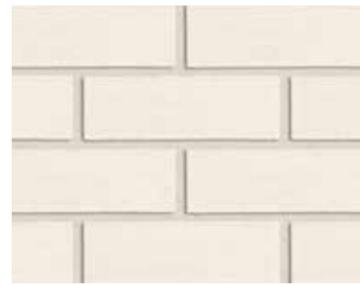

Have you ever wished you could take a little piece of the country home? That feeling of being surrounded by nature, with gum trees, big skies and views that seem to go on forever.

Introducing Pure Linens - bricks that gently connect country authenticity with urban life. Painstakingly crafted by our passionate artisans from our factory in the small town of Jindera, not far from the New South Wales / Victoria border, they bring country soul to the heart of your home with sophistication and style.

Pure Linens is a new premium range of bricks available in a stunning palette of four, city-style, sophisticated neutral shades.

Each brick has its own finely-curated and subtle hue, which delivers a smooth, surface texture and the highly desirable colour-through brick quality.

These beautifully crafted, quality Australian-made bricks will transform your home and leave you with a feeling of soft country elegance and style.

MORADA: BLANCO LINEAR

NATURAL VARIATIONS

The inherent beauty, appeal and distinctive look of clay bricks comes from the natural variations found in the raw materials used in the brick making process and may mean colour and texture variations will occur from time to time. **Colours shown are indicative only and should not be used for final selection. Products ordered should be chosen from actual samples current at the time of order.**

BLENDING AND CLEANING

Blending

It is essential that all bricks be carefully blended from at least three or four different packs/pallets at the time of laying to provide a consistent colour and texture. Your bricklayer is responsible for ensuring an even colour distribution.

Brick Cleaning

Brick cleaning is a specialist trade and should only be undertaken by a professional. The chemicals and high water pressures used can easily damage the product, if not done correctly. Different brick textures and colours often have different cleaning considerations. Dry brushing bricks periodically to remove residual mortar is an effective way to reduce the amount of effort required to clean bricks. Bricks should be cleaned within 2 to 14 days of laying.

Brick Cleaning Guides are available:
pghbricks.com.au

Alternatively, please contact PGH™ on 13 15 79 or Think Brick Technical Hotline on 1300 667 617.

SOLAR ABSORPTANCE RATING (BASIX RATING)

When designing energy efficient buildings, the architects and consulting engineers need to be able to calculate the heat loss or gain of materials used to construct the buildings. This is why building materials are categorised into 3 categories: Light (L), Medium (M) and Dark (D). Light coloured being a low solar absorptance and Dark coloured being a higher solar absorptance.

BRICK DURABILITY

Salt Attack Resistance

Bricks are commonly classified into three categories for Salt Attack Resistance:

1. Exposure Grade (EXP) – the product is suitable for a severe marine or saline environment. Exposure Grade bricks are less susceptible to salt attack. A severe marine environment is defined as: up to 1km from a surf coast or up to 100m from a non-surf coast.
2. General Purpose (GP) – the product is suitable for general environmental conditions. These bricks should not be directly exposed to saline environments. For more information.
3. Protected Grade (PR) – Suitable for use above the damp proof course provided they are protected at the top of the wall by appropriate roofs, eaves, copings or toppings .

- Internal walls
- Coated/Rendered externals walls

Protected Grade units are not suitable for use in saline environments visit thinkbrick.com.au

**PGH™
SELECTION
CENTRES**

Selecting PGH™ bricks has never been easier. At our large network of Selection Centres we offer many services such as colour scheming, product selection and technical advice. Make an appointment today.

**PGH™ BRICKS GEELONG
SELECTION CENTRE**

38 LEATHER ST, BREAKWATER, VIC 3219
13 15 79

**PGH™ BRICKS MELTON
SELECTION CENTRE**

2-6 GATEWAY DRIVE, MELTON, VIC 3337
13 15 79

**PGH™ BRICKS SCORESBY
SELECTION CENTRE**

191 GEORGE ST, WANTIRNA SOUTH, VIC 3152
13 15 79

**PGH™ BRICKS THOMASTOWN
SELECTION CENTRE**

2 TRAWALLA AVE, THOMASTOWN, VIC 3074
13 15 79

If you are unable to visit one of our Selection Centres, visit our website to find a distributor near you, pghbricks.com.au or call us for details on 13 15 79.
