 CULTURED STONE™

# Sculpt the modern landscape.

Challenge convention. Elevate trends. Create demand.

At the epicentre of the contemporary architecture and design movement you'll find Cultured Stone's Pro-Fit® Modera™ LedgeStone - the inspiration behind some of today's most innovative and striking modern structures.

## PRO-FIT® MODERA™ LEDGESTONE

With an emphasis on strong, contemporary designs that elevate trends and create demand, our Modera™ Pro-Fit® collection offers a practical way to achieve a tailored ledgestone look with small-scale, low relief stones.

It's quick and easy to install because it isn't applied one stone at a time. Instead, the primary building blocks are groups of small stones meticulously bundled together to form modular components of equal height. Pro-Fit® products also feature the patented Cultured Stone® cladding interlocking mortar groove for secure adhesion without grouted joints.
